

Placing lifewave kit orders

I'm happy to set your order up for you but if you prefer to do it, then here are the steps for you. For the CORE kit which gives 3 patch sleeves (an envelope with 30-a months worth of patches), you get 2 for the price of one of the aeon in the kits so you'll make the cart have 2 x39 and 2 aeon (CORE saves you \$48.50) to complete your order.

For the ADVANCED kit you get 6 sleeves, so you get 4 x39 and 4 aeon (ADVANCED saves you \$100).

Once your order is at the final page you'll see the total with shipping and tax.

Let me know if you have any questions.

FOR CORE ORDER:

Here are the details to place your order for your patches.

You will be ordering the "**CORE**" savings bundle with 2 X39, and 2 Y-Age Aeon.

***Here are the guidelines on how to place your own order with my link:**

1. Go to ([Lifewave.com/kathomas](https://lifewave.com/kathomas)),
2. in the right hand corner for the website, select your country.
3. Click on the word "**JOIN**".
4. Select an Enrolment Kit of choice: Starter, **Core**, Advanced, or Premium. (We would have already discussed this in our call so you know which one you need. If you have any questions, then please reach out to me for help.)
5. Once you select that option you will have a page showing 3 X39's in the cart for Core.
6. hover your cursor over the number of X39's in the box and you will see the arrows to reduce it to fewer X39's, depending on how many other support patches you are needing to add in
7. then go over to 'patches' and click on what you need, such as "Y-age Aeon" or Ice Waves (for pain)
8. then go back to the item box and increase it to the number of Aeon and Ice waves with the arrows next to the number for them there. With the Core kit you will have a total of 3 sleeves-with the support sleeves only counting for half of a sleeve in the savings bundle kits. (For example, 2 Aeon= one sleeve in the kit)
9. Now you should see the green arrow at the bottom of the page be filled.
10. Click continue.
11. This will bring you to the next page which is your monthly subscription items. You can place whatever you like in here for now, (such as one X39 and one Aeon) and make the order date when you will be sure it ships to you before you run out. You'll have the time before the next ship date you choose to make any modifications to the order. Be

sure to put this date in your calendar so you don't forget to make any wanted changes before then.

12. The next page will ask for all your personal information. You are required to fill in all boxes with red stars beside them.
13. Read the terms and check the box to agree to terms.
14. Then Click submit once complete,
15. it will ask you to review your order and then you can select "Complete Enrollment" if all the information is correct.

Write down your ID number, password and username so you don't forget them when you want to access your Lifewave account. Monthly autoship orders can be modified at any time.

Patches are worn 12 hours on, then 12 hours off. Place an x39 on during the day and the aeon on at night. Both can be worn at the same time too.

Remember to keep well-hydrated with filtered water. There may be slight die off/detox reactions. In that case, we can reduce to fewer hours of patch usage for the first few days. Let me know so I can help.

Here's a [results tracker](#) for you to track progress over time.

Stem cell reactivation patch results-don't treat, cure or heal anything. Through low light therapy the X39 patch reactivates the body's own dormant stem cells that can now go back to work within the body.

For more science, research and testimonies go to thisisitinfo.com.

All my best,

Karen
